Dear Applicant,

Application for New Hampshire 2020 Coronavirus Aid, Relief, and Economic Security Act (CARES Act) Fisheries Assistance – Seafood Processor/Dealer

Please note: Enclosed is an application that must be completed and returned or postmarked to the NH Fish and Game Department, CARES ACT-Processor/Dealer, 225 Main Street, Durham, NH, 03824 by January 19, 2021 to be eligible for CARES Act assistance funds.

New Hampshire has been allocated approximately \$2.7 million in funding provided by Section 12005 of the Coronavirus Aid, Relief, and Economic Security (CARES) Act for a relief program for certain marine fishery sectors who have been negatively affected by COVID-19. This is a grant program; funds received under this program are taxable.

Details are available online at: <https://www.wildlife.state.nh.us/marine/cares-act.html>. A portion of these funds will be paid to eligible 2020 seafood processors and dealers. As the holder of a New Hampshire 2020 wholesale marine species license, with transactions within the past five years, or a New Hampshire seafood processing business, you may be eligible to receive a share of the funds. To qualify, you must meet all the minimum requirements below:

- Seafood dealers must have held a 2020 New Hampshire Wholesale Marine Species License or out of state equivalent during part or all of the qualification period, March 1, 2020 through June 30, 2020.
- Must have suffered a greater than 35% gross seafood revenue loss between March 1, 2020 and June 30, 2020 caused by COVID-19 compared to the previous reported 5-year average gross seafood revenue between March 1 and June 30, or less if not in business for five years.
- Must have been in business for at least one year between 2015 and 2019 within the qualification period.
- Must be 18 years of age or older at time of application.
- Must be in good standing with the State and Federal Government.
- Must be a New Hampshire resident or business.
- The total of assistance from this program, **other** COVID-19 pandemic related relief funds, and your 2020 total gross seafood revenue must not make the applicant “more than whole” compared to your 5-year average of gross seafood revenue (or less if not in business for five years). *Please note, you may qualify for funds based on your submitted mandatory dealer reported gross seafood revenue data or processing gross seafood revenue, but be unable to apply for and accept funds based on your total 2020 annual gross seafood revenue, including all CARES Act assistance funding received from all sources, that exceeds your 5-year average annual gross seafood revenue.* See examples below:

Example #1. Seafood business qualifies with a greater than 35% loss in 2020 compared to the average gross seafood revenue during the qualification period between 2015 and 2019, but would be “made more than whole” because the 2020 annual gross seafood revenue (which may include other received CARES Act assistance funding sources) is higher than the 5-year average annual gross seafood revenue and therefore cannot accept funds.

	Gross Seafood Revenue							% loss	Qualified
	2015	2016	2017	2018	2019	Average 2015-2019	2020		
Qualification Period Revenue (Mar 1 – June 30)	\$1,000	\$1,000	\$1,000	\$1,000	\$1,000	\$1,000	\$500	50%	Yes
Annual Revenue	\$2,000	\$2,000	\$2,000	\$2,000	\$2,000	\$2,000	\$3,000	No Loss	No

Example #2. Seafood business qualifies with a greater than 35% loss in 2020 compared to the average gross seafood revenue during the qualification period between 2015 and 2019 and could accept funds because the annual gross seafood revenue in 2020 (which may include other received CARES Act assistance funding sources) is less than the 5-year average annual gross seafood revenue between 2015 and 2019.

	Gross Seafood Revenue							% loss	Qualified
	2015	2016	2017	2018	2019	Average 2015-2019	2020		
Qualification Period Revenue (Mar 1 – June 30)	\$1,000	\$1,000	\$1,000	\$1,000	\$1,000	\$1,000	\$500	50%	Yes
Annual Revenue	\$2,000	\$2,000	\$2,000	\$2,000	\$2,000	\$2,000	\$1,500	25%	Yes*

* May receive up to the difference between average gross seafood revenue (2015-2019) and total 2020 gross seafood revenue. In this example, up to \$500.
